

PLANTING YOUR SPECIAL PLANT

Getting Familiar with your Plant!

STEP ONE: DIG A HOLE

Important!

Planting Line
This is where the root ball meets the trunk, usually there is a defined line from where the trunk changes from root stem to bark

STEP THREE: STAKE & ENJOY

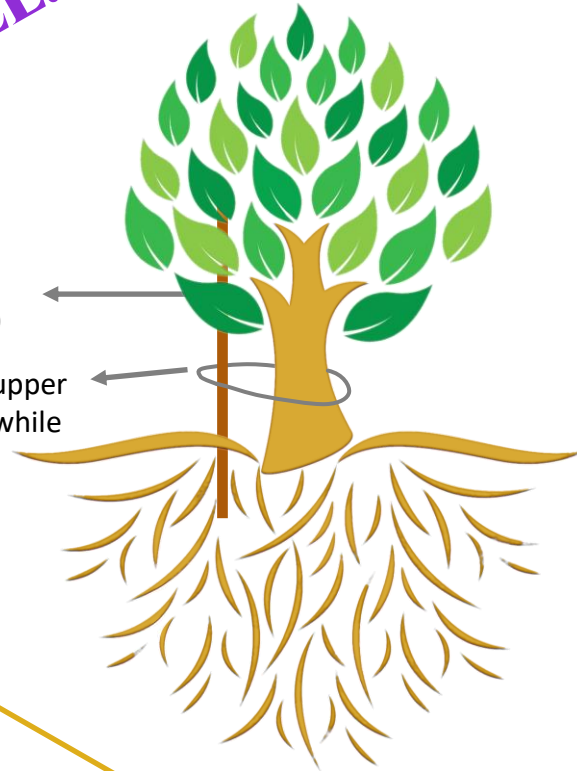

**STEP TWO:
ADD INGREDIENTS**

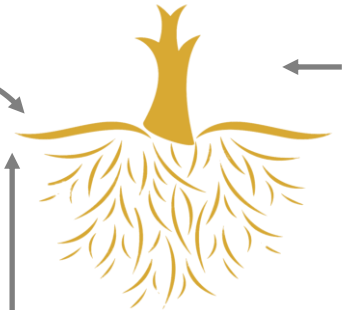

Untreated 2" by 2" stake
(in 2 years this will rot for easy removal)

Secure it low (1/3 up), allowing upper stem to strengthen in the wind while reducing rootball motion

1 x Plant

Bark/Mulch 1-2"

Important!

Make sure to rough up the root ball sides and base with a gloved hand before placing in hole.

PLANTING CHART

BAG SIZE	W (mm)	D (mm)
PB3	200	200
PB5	200	250
PB18	300	350
PB40	500	400
PB95	600	400
Bare rooted	~ Width of the Roots	~ Depth of the Roots

Important Info

Please plant this tree within 7 days of receiving it. The sooner the better.

If you are unable to plant immediately just make sure to keep the roots wet.

We have provided wetted wood chip and a bag to keep the roots in a moist condition.

Make sure to check how wet the wood chip is and wet as required or place the plants roots under some loamy soil until you are ready to plant!

The best thing for these plants is to plant them as soon as you can.

If you have any questions please feel free to call 0277168186 or email nursery@astonnorwood.co.nz
